ST MARY HIGH SCHOOL WAHEGAON  
2019-2021

## LANGUAGES

- ENGLISH
- HINDI
- MARATHI

## SUMMARY

I'm a Full Stack Web Developer who's good at building websites from start to finish. I work on how they look and how they function, using stuff like HTML, CSS, and JavaScript. I also handle the behind-the-scenes stuff like databases and servers, using languages like Node.js. I'm great at solving problems and love learning about new tech. Plus, I work well with others to make sure we deliver top-notch results.

## INTERNSHIP

### FULL STACK WEB DEVELOPER

#### • HOSPITAL WEBSITE JAN 2024 - RECENT

- I built a hospital website using HTML, CSS, and JavaScript for the design, making it easy to navigate. For the technical stuff behind the scenes, I used Node.js to manage the servers and MySQL for the database. This means the site runs smoothly and securely, storing important data like patient records. It's a user-friendly platform that helps patients and healthcare providers communicate better.

#### • NEWS PORTAL FEB 2024 - RECENT

- I created a news website using HTML, CSS, and JavaScript. It has a nice layout for readers. I used Node.js for the server to make it fast and dependable. We stored articles in MySQL to manage them well. It's a lively site where users can get the latest news easily. Plus, I collaborated with a team on this project.

#### • WEDDING PHOTOGRAPHY MAR 2024 - RECENT

- I crafted a wedding photo site, perfect for photographers to showcase their work. Using HTML, CSS, and JavaScript, I ensured it looks stunning. For speed, I relied on Node.js, and for managing information, MySQL did the job. It's an ideal platform for sharing and cherishing wedding memories through captivating photos.

#### • ONLINE FURNITURE SHOP APRIL 2024 - RECENT

- I built an online furniture shop with extra features. I made sure users can sign in safely and keep their information private. Also, I added a way for them to pay securely using Node.js. It's a user-friendly site where people can shop for furniture without worrying about their data.
